State-of-art wheels.

- 1- Wheel with double ball bearings. The suspension system allows the wheels to glide along, with no effort required from the shopper.
- 2- Dust guard prevents dirt from getting inside the wheel and makes it longer-lasting.
- 3- Four wheels, two with 360° rotation and two fixed. The basket offers total stability, making shopping more comfortable.

Stackable

The wheels on the basket inside do not touch the bottom of the previous one.

Pulley handle

- Handles are moulded by nitrogen gas injection.
- Handle doesn't drop to the floor thanks to reinforced frame.

Guarantee

SB offers a two years guarantee.

Cleaning

The shape of the basket makes it easy to clean.

Metal support

Helps the easy movement of stackable baskets.

"Antitheft" System

Works with radiofrequency 8.2Mhz.

Temperature resistance:

The quality of the baskets allows them to withstand temperatures as low as -25 °.

Customisation

Can be customised with the corporate logo and colours.
